*Our fathers surely provided for us a goodly heritage.
They cast our lot for us in pleasant places, on these
wide sweeping prairies.
Let us never forget that we are the guardians of its
present and its future prosperity.*

2772648 Lodge

The Half Century Club is composed of men and women who were born in Urbana more than fifty years ago, or who have resided in and around the City of Urbana for fifty years or more.

The Club was organized in 1924. Our annual dinner meeting is a social function toward which our members look forward each year with high anticipation.

Bureau

Urbana is and always has been a socially democratic community. It has never recognized any individual as its "first citizen." Each individual, in his day and time, made his contribution to the development, progress and prosperity of the community as a whole, for which we are and ever will be indebted. This brochure presents the photographs of only a few of the multitude of men and the many institutions of fifty or more years ago that laid and built upon the foundation of the Urbana community.

Paul G

None of these men are now living, but their works and deeds live after them and will be long remembered. Only one of the buildings shown in the photographs yet stands.

2709 115.4 & 47

For the comforts and blessings enjoyed by the youth of today, too many of these young people do not realize their obligation to the men of former generations. It is hoped this brochure will serve as a reminder to the youth of this and succeeding generations, that the blessings they enjoy did not come by mere accident, or as a matter of course, but are the result of the thought, the labor, the courage, the hardships, and the vision of Urbana's pioneers. It is hoped that thus it may serve a useful purpose.

HALF CENTURY CLUB

of

Urbana, Illinois

— 1947 —

OFFICERS AND COMMITTEES

President Henry I. Green
Vice President Irwin I. Chase
Secretary-Treasurer Miss Mae Buchanan

of land to the within
donation to be selected by
the county Board within
forty rods of the N.W. corner
of Bussey's donation for the
purpose of a burying ground
and public meeting house
Wm. H. Bussey

THE CITY OF URBANA

CHAMPAIGN COUNTY

State of Illinois

By Alexander Newman

Scale, 264 feet to the inch.

A.D. 1860

URBANA

A thriving and beautiful city in the center of Champaign County and in the midst of a vast territory of land unsurpassed in fertility adjacent to the Big Grove which contains 12,000 acres of first class timber.

It also has a beautiful stream of water, meandering through its center affording all facilities for manufacturing to which use it is largely appropriated. — It is the County seat and where the business of the County mainly centres.

WEST URBANA

situated on both sides of the Illinois Central Rail Road, the corporate limits of which extend to those of Urbana. It is also a large and flourishing town rapidly increasing in all that goes to make an extensive city in a few years.

The two places contain a population of about 6000 inhabitants.

1861. This building erected and called "The Urbana and Champaign Institute Building;" it stood at the North end of what is now Illinois Field, faced University Avenue. The main part of the structure was 125 feet front, 40 feet in depth and five stories high. It contained 90 dormitories, each ten by fifteen feet, and accommodations for 800 students.

October 5, 1866. Champaign and Urbana proposed to purchase the eight acres on which this building stood at a cost of \$30,000.00 and use \$70,000.00 more to buy land to secure the location of the proposed Illinois Industrial University over the other contestants—Bloomington, Jacksonville, and other towns which had made offers.

February 28, 1867. The Fuller Bill, which provided for the location of the Illinois Industrial University in Urbana, was approved by the Legislature. It opened with seventy-seven students, thirteen professors, four assistants and J. M. Gregory, L. L. D., as Regent.

1829 — The first window glass was brought to Champaign County.

1832 — Only two schoolhouses then in Champaign County.

1833 — First court was held in Urbana, in an old log stable.

1833 — First license to sell goods and merchandise here was granted to J. H. Alexander of Urbana. The goods were brought from Philadelphia by railroad, boat, ox-cart and wagon.

1833 — Champaign County was created. John F. Richardson of Clark County, James P. Jones of Coles County, and Stephen Shelleday of Edgar County, were appointed and charged with the duty of locating the county seat, to be named Urbana.

1833 — William T. Webber settled in Urbana Township. He donated twenty acres of land upon which the original Town of Urbana was located.

1834 — The first tavern was opened in Urbana. It was run by Israel Knapp.

1835 — F. L. Scott settled on the Sangamon. The trail between this settlement and Urbana was so very circuitous that he took a plow and ran a furrow to Urbana. This furrow became the line and route of the Bloomington Road, now U. S. Route 150.

1835 — A horse-powered grist mill was built here by John Brownfield. Its capacity was 15 bushels an hour.

1836 — Order was given for building our first courthouse, to be made of hewn logs 24 feet long.

1840 — The first Methodist Episcopal Church in Urbana was built. The lot cost three dollars. The church was 30 x 40 feet.

1851 — Election to incorporate held in Urbana. Voted 25 to 1 that the Town of Urbana be incorporated.

1851 — A stalk of a new plant called Chinese Sugar Cane, now known as sorghum, was brought into the newspaper office of the Urbana Union.

1852 — First Champaign County fair held in courthouse square.

1852 — First tinware was made in Urbana by W. H. Jaques.

1854 — First mail carried by railroad from Chicago to Urbana, and carrying by stage coach was abandoned.

- 1855 — First Champaign County fairgrounds located four blocks south of the courthouse.
- 1856 — Political meeting held at Urbana, followed by a barbecue, and although several animals were cooked, the food supply ran out. Abraham Lincoln sat at the head of the long table.
- 1856 — Republican party born. Democrats were always here.
- 1857 — The first Teacher's Institute met in Urbana. President T. R. Leal was then the only Republican in the township. Mr. Leal introduced blackboards into the schools.
- 1863 — First street car was run from Urbana to Champaign. It was drawn by a pair of mules.
- 1863 — A frost on August 27 practically ruined the corn, which rose in price from twelve cents to one dollar a bushel. B. F. Harris, then the largest cattle feeder in this area, had to buy most of the corn between here and Bloomington, for his feeding operations.
- 1867 — "Busey Bros. & Co." Bank organized. Opened for business January 13, 1868.
- 1867 — The first stamped envelopes were used here.
- 1869 — First use of gas in Urbana.
- 1885 — First use of electric lights in Urbana.
- 1888 — Corner stone of St. Mary's Catholic Church laid. Church built through the efforts of Rev. Anthony Wagner.
- 1901 — First electric cars run from Urbana to Danville.

"Illinois reaches back for more than one hundred fifty years in interesting annals and they are connected with religious orders; for the crucifix and not the sword was the weapon of the advance guard, that took possession of this vast prairie state."
